# VueturaTrac™ MyVue™

MyVue offers the ability for employees to pre-register guests from their desktop from MyVue's intuitive calendar style web/app interface. Guests receive a pre-scripted email with an email attachment which may include your company's logo, maps, directions, work rules, and parking passes. The tool also allows for resource management of parking spaces, conference rooms, and other scheduling type items.

With an easy to read calendar, your employees/customers can not only view packages processed at the Mail and Distribution center, but they also can view packages that are on their way. MyVue™ provides authorized users a simple, easy to use browser application for a personal "view of their in-bound packages" via their desktop web browser. With our ASN (Advanced Shipment Notification) process option, customers can view their in-bound packages, before they reach the dock.

Send message alerts for in-bound packages directly to the Mail and Distribution processors. Once the package arrives at the dock, processors get notified via an on-screen messaging system that this package has an alert, and displays the package instructions provided by the intended recipient. Since each processing station is linked to the main database, the package alert will show on any station that processes that package.

MORE MYVUE FEATURES

Multi-Site Support for Distributed Locations:
If your company has multiple locations where MyVue is available, you will be presented with a screen to select a location.

Security Login Features:
Login options include Windows NT Authentication and Web-Form Authentication.
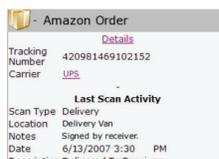

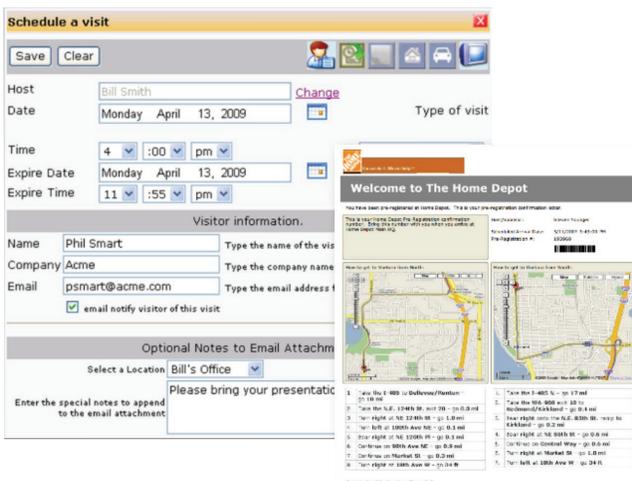

History:
Search past history and see all visits, meeting, guests, and parcels you've received.

Delegation:
It is possible to assign other people permission to monitor and edit your entries in MyVue on your behalf.

Calendar Drill Down:
Easy to use browser based interface lets you drill down into the calendar by clicking on the summary and expanding the table view to get full event or package details.

About **Vuetura**

Powerful results

VueturaTrac gives you complete control and detailed oversight of visitor and package tracking, process automation, and supply chain management.

What makes VueturaTrac so great?

◹ **Speed and Efficiency**

With VueturaTrac manual processes become automated, streamlined, accurate, faster and much, much less costly.

👍 **100% Visibility**

With just a few clicks, you can find any package and/or person in your facility and access its complete history.

📈 **Rapid ROI**

Customers report 400% or more three-year ROI, and the system frequently pays for itself in under a year.

⚙ **It seamlessly integrates with the big systems**

VueturaTrac can integrate between one or more external host database systems or data warehouses.

We are tracking experts with an intelligent, user-friendly framework built to give you complete control and detailed oversight of all tangible items within your organization— receiving & delivery tracking, lobby and visitor security, supply chain management and more.
