# WebTrac™ Desktop Tracking

This standard feature of VueturaTrac provides up to date parcel information to your internal users throughout your enterprise... buyers, department managers, employees, customer service staff will all benefit.

Through an easy to use web interface searches can be performed on a variety of criteria: carrier tracking number, purchase order, requisition number, return authorization number, department code, vendor, recipient name, and many other key fields. The data provides users with the current status of their package including dates, times, and location of their parcel. This tool provides 100% visibility to the full chain of custody of your parcels leading to a reduction in administrative research time often incurred by admins, purchasing, receiving, and end user staff. Take a look at the right column to see WebTrac features and benefits.

FEATURES

Complete Chain of Custody:
from manufacturer (with optional ASN connection) to recipient. Each step including location moments and all handler changes.
